International Workshop on
Inverse Problems and Regularization Theory

Organized by Professor Jin Cheng (Shanghai) and Professor Bernd Hofmann (Chemnitz)

Fudan University, Shanghai, China
September 26 - 29, 2013

Integrating the Chemnitz Symposium on Inverse Problems on Tour

The purpose of this workshop is to further strengthen the collaboration among the worldwide leading researchers in inverse problems and regularization theory. The workshop is organized by Professor Jin Cheng (Fudan University, China) and Professor Bernd Hofmann (TU Chemnitz, Germany).

The current workshop is a highlight of the Chinese (NSFC) - German (DFG) jointed research project "Regularization of nonlinear ill-posed problems in Banach spaces and conditional stability".

INVITED SPEAKERS:

Wenbin Chen (Shanghai, China)
Dinh Nho Hao (Hanoi, Vietnam)
Markus Hegland (Canberra, Australia)
Qinian Jin (Canberra, Australia)
Philipp Kügler (Stuttgart, Germany, to be confirmed)
Peter Maaß (Bremen, Germany, to be confirmed)
Peter Mathé (Berlin, Germany)
Sergei V Pereverzev (Linz, Austria)
Robert Plato (Siegen, Germany)
Ronny Ramlau (Linz, Austria)
Thomas Schuster (Saarbrücken, Germany)
Jun Zou (Hong Kong, China)

CO-ORGANIZED BY:

School of Math. Sciences, Fudan University
Inverse Problem Group, TU Chemnitz
Shanghai Key Lab of Contemp. Appl. Math.
Nonlinear Math. Model. and Methods Lab.

VENUE:

Room 1801, East Guanghua Main Building,
School of Mathematical Sciences
Fudan Universty, No. 220 Handan Road
Shanghai, China
